Hi John,

I am listing to you on Air America in The Majority Reports slot.

Is it possible for you to display and read the names of the 25 Americans who share Bush's birth-date and who died in Vietnam. You could do so on Bush's 60th birthday, July 6. The twenty five will forever remain dead at 19, 20, 21, 22, 23, 24, and 25 years of age. This could further enhance her efforts during the Troops Home Fast.

You could also enlist 25 people to represent the 25 who died and protest with a 'die in'. Or perhaps 25 different people can read off a name.

I created a web page to assist activists who want to remind the media, Americans, and Bush, on his birthday that he is a chicken-hawk.

Please review my website for the list of the dead, ideas for the project, a printable pdf that can be distributed, a link to verify the facts, and a guest book. After reviewing the site, please email your friends and the media and do something on Bush's birthday.
